Important Notice:

Staff should ensure they are symptom-free (*see below) and not put others at risk before attending work.

***a high temperature** – this means you feel hot to touch on your chest or back (you do not need to measure your temperature) **a new, continuous cough** – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)

**LET
RISK ASSESSMENT FORM**

***a loss or change to your sense of smell or taste** – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal

undertaking testing - staff should instigate a COVID-19 test if they met the set criteria

Do not go to a GP surgery, pharmacy, or hospital.

Use the 111 online coronavirus service to find out what to do.

For more information, read further [guidance on symptoms](#).

If you have one or more of these symptoms, you must self-isolate straight away for 7 days – or longer if you still have symptoms other than cough or loss of sense of smell/taste.

If you live in the same household as someone with coronavirus symptoms, you must self-isolate straight away for 14 days.

RISK ASSESSMENT FORM**

HAZARD NO.	EXISTING CONTROLS	FURTHER CONTROLS	BY WHOM	COMPLETION DATE	FINAL RISK RATING		
					LOW	MEDIUM	HIGH
1.	<p>Opening up school/closing down Caretaker will be offsite between 8:30am and 3pm. Caretaker has mobile phone in case of emergency and be 'on call'. Maintenance, compliance and servicing should continue and include:</p> <ul style="list-style-type: none"> • Fire safety systems & Risk Assessment • Gas services • Electrical services • Asbestos services • Hot & cold water services (legionella) • Lifting equipment (Inc. platform and passenger lifts where appropriate) • Pressure vessels and systems. <p>A COVID 19 Visitor Policy is in place and is on display and sent to any person booking in to visit the academy. Contractors will not be allowed into school unless they can confirm they do not have any symptoms of coronavirus and do not live with anyone with symptoms. Social distancing should be in place when supporting maintenance and servicing. Cleaners are working to a specification to ensure all surfaces used by people are cleaned with warm soapy water and detergents daily. PPE is available and orders will be placed when needed. COSHH sheets are in place for all chemicals, and training has been given for all equipment. Wet floor signs are used to indicate slip hazards. Corridors and classrooms and offices are kept tidy, and storerooms have racking.</p>		SL/CAT/ METROCLEAN/ CARETAKER	Ongoing	X		
2.	<p>Cleaning A cleaning schedule is in place that ensures cleaning is generally enhanced and includes:</p> <ul style="list-style-type: none"> • more frequent cleaning of rooms / shared areas that are used by 		SL/ CARETAKER/ CLEANING TEAM	Ongoing	X		

	<p>different groups.</p> <ul style="list-style-type: none"> frequently touched surfaces being cleaned more often than normal <p>Personal protective equipment (PPE) The minimum PPE to be worn for cleaning an area after a person with symptoms of, or confirmed COVID-19 has left the setting possible is disposable gloves and an apron. Wash hands with soap and water for 20 seconds after all PPE has been removed. PPE is available in Admin Store A.</p> <p>Cleaning and disinfection Public areas where a symptomatic person has passed through and spent minimal time but which are not visibly contaminated with body fluids, such as corridors, can be cleaned thoroughly as normal. All surfaces that the symptomatic person has come into contact with should be cleaned and disinfected, including all potentially contaminated and frequently touched areas such as bathrooms, door handles, telephones, grab rails in corridors and stairwells. Use disposable cloths or paper roll and disposable mop heads, to clean all hard surfaces, floors, chairs, door handles and sanitary fittings – think one site, one wipe, in one direction.</p> <p>Use one of the options below:</p> <ul style="list-style-type: none"> a combined detergent disinfectant solution at a dilution of 1,000 parts per million available chlorine (ppm av.cl.) or a household detergent followed by disinfection (1000 ppm av.cl.). Follow manufacturer’s instructions for dilution, application and contact times for all detergents and disinfectants or if an alternative disinfectant is used within the organisation ensure that it is effective against enveloped viruses <p>Avoid mixing cleaning products together as this can create toxic fumes. Avoid creating splashes and spray when cleaning. Any cloths and mop heads used must be disposed of and should be put into waste bags as outlined below. When items cannot be cleaned using detergents or laundered, for example, upholstered furniture and mattresses, steam cleaning should be used.</p>

3.	<p>All Year Groups attending the Academy The guidance https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools has been used to formulate this risk assessment and particularly Control Measure 3. KS1 pupils will be in class bubbles to minimise interaction and staggered start and finish times are in place. The class bubbles will be kept apart from other groups where possible and pupils will be encouraged to keep their distance within bubbles. In Early Years, our F1 and F2 children will operate as a large bubble during the morning, prior to the F1 children leaving at 11:45am. Adults should try to keep their distance from other adults- ideally 2 metres and also maintain a distance from the children where possible. Contact will be minimised as mixing between people reduces transmission of coronavirus (COVID-19). Endeavouring to keep groups at least partially separate and minimising contacts between pupils will still offer public health benefits as it reduces the network of possible direct transmission. All teachers and other staff can operate across different classes in order to facilitate the delivery of the school timetable. Where staff need to move between classes, they should try and keep their distance from pupils and other staff as much as they can, ideally 2 metres from other adults. Where possible, occupied room windows should be open.</p> <p>Measures within the classroom Staff and pupils should maintain a distance between each other whilst inside and reduce the amount of time they are in face to face to contact to lower the risk of transmission. Staff should aim to maintain distance from pupils, staying away from their colleagues where possible. Ideally, adults should maintain 2 metre distance from each other, and from pupils. Staff should avoid close face to face contact and minimise time spent within 1 metre of anyone. This will not be possible when working with pupils who have complex needs or who need</p>	<p><u>The systems of controls:</u> <u>protective measures</u> System of controls Prevention: 1) minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school 2) clean hands thoroughly more often than usual 3) ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach 4) introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents and bleach. 5) minimise contact</p>	All staff	Ongoing	X		

**LET
RISK ASSESSMENT FORM**

	<p>close contact care. These pupils' educational and care support should be provided as normal.</p> <p>Pupils should be reminded and supported to maintain distance and not touch staff and their peers where possible. This will not be possible for some children with complex needs. Cleaning spray, cloths and paper towels will be in every room to allow staff to wipe down chairs and tables on a regular basis. Small adaptations to the classroom will be made to support distancing where possible. This will include seating pupils side by side and facing forwards, rather than face to face or side on, and will include moving unnecessary furniture out of classrooms to make more space.</p> <p>For individual and very frequently used equipment, such as pencils and pens, staff and pupils will have their own items that are not shared. Classroom based resources, such as books and games, can be used and shared within the year group bubble; these will be cleaned regularly, along with all frequently touched surfaces. Resources that are shared between bubbles, such as PE, art and science equipment will be cleaned frequently and meticulously or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics) between use by different bubbles.</p> <p>Outdoor equipment will be more frequently cleaned. This includes resources used inside and outside by other providers. Pupils will limit the amount of equipment they bring into school each day, to essentials such as lunch boxes, hats, coats and bookbags. Pupils and teachers can take books and other shared resources home, although unnecessary sharing should be avoided, especially where this does not contribute to education and development. Similar rules on hand cleaning, cleaning of the resources and rotation apply to these resources.</p> <p>Measures elsewhere</p> <p>Classes will be kept apart, and there will be no large gatherings such as assemblies with more than one class.</p> <p>When timetabling, classes will be kept apart and movement around the school site kept to a minimum. Passing briefly in the corridor or outside is low risk. To avoid creating busy corridors, entrances and exits, there will be staggered break times and lunch times.</p>	<p>between individuals and maintain social distancing wherever possible</p> <p>6) where necessary, wear appropriate personal protective equipment (PPE)</p> <p><u>Numbers 1 to 4</u> must be in place, all the time.</p> <p><u>Number 5</u> must be properly considered in place where possible.</p> <p><u>Number 6</u> applies in specific circumstances such as dealing with a symptomatic individual.</p> <p>Response to any infection:</p> <p>7) engage with the NHS Test and Trace process</p> <p>8) manage confirmed cases of coronavirus (COVID-19) amongst the school community</p> <p>9) contain any outbreak by following local health protection team advice</p> <p><u>Numbers 7 to 9</u> must</p>					
--	--	--	--	--	--	--	--

**LET
RISK ASSESSMENT FORM**

	<p>Staff will plan how shared staff spaces are set up and used to help staff to distance from each other. Use of the staff room should be minimised, although staff must still have a break of a reasonable length during the day. To avoid creating busy corridors, entrances and exits, there will be staggered start/finish times, break times and lunch times. This risk assessment will be reviewed and revised regularly, and in line with government guidance and updates. Subject specific risk assessments have been revised to include specific Covid-19 related risks and control measures.</p>	<p>be followed in every case where they are relevant.</p>					
<p>4.</p>	<p>Staff, visitors, contractors and pupils arriving/leaving school We have informed students, parents, carers or any visitors, such as suppliers, not to enter the education or childcare setting if they are displaying any symptoms of coronavirus (following the COVID-19: guidance for households with possible coronavirus infection) Signage in Reception is clear regarding entering the building and a COVID 19 Visitor Policy is in place. Where visits can happen outside of school hours, they should. A record should be kept of all visitors. To facilitate the NHS test and trace service, Leger Education Trust will encourage workers to heed any notifications to self-isolate and provide support to these individuals when in isolation. All schools will log attendance and contact details of pupils, staff, visitors and contractors to ensure compliance with Track and Trace through the visitors' book, registers, and signing in sheets. We will ensure that staff members and parents/carers understand that they will need to be ready and willing to:</p> <ul style="list-style-type: none"> • book a test if they are displaying symptoms. Staff and pupils must not come into the school if they have symptoms, and must be sent home to self-isolate if they develop them in school. All children can be tested, including children under 5, but children aged 11 and under will need to be helped by their parents/carers if using a home testing kit • provide details of anyone they have been in close contact with if they were to test positive for coronavirus (COVID-19) or if asked by NHS Test & Trace 		<p>All staff</p>	<p>Ongoing</p>	<p>X</p>		

**LET
RISK ASSESSMENT FORM**

	<ul style="list-style-type: none"> • self-isolate if they have been in close contact with someone who develops coronavirus (COVID-19) symptoms or someone who tests positive for coronavirus (COVID-19) <p>Anyone who displays symptoms of coronavirus (COVID-19) can and should get a test. Tests can be booked online through the NHS testing and tracing for coronavirus website, or ordered by telephone via NHS 119 for those without access to the internet. Essential workers, which includes anyone involved in education or childcare, have priority access to testing.</p> <p>By the autumn term, all schools will be provided with a small number of home testing kits which we will give directly to parents/carers collecting a child who has developed symptoms at school, or staff who have developed symptoms at school, where they think providing one will significantly increase the likelihood of them getting tested. Advice will be provided alongside these kits.</p> <p>We have asked parents and staff to inform the academy immediately of the results of a test:</p> <ul style="list-style-type: none"> • if someone tests negative, if they feel well and no longer have symptoms similar to coronavirus (COVID-19), they can stop self-isolating. Other members of their household can stop self-isolating. • if someone tests positive, they should follow the ‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’ and must continue to self-isolate for at least 7 days from the onset of their symptoms and then return to school only if they do not have symptoms other than cough or loss of sense of smell/taste. This is because a cough or anosmia can last for several weeks once the infection has gone. The 10-day period starts from the day when they first became ill. If they still have a high temperature, they should keep self-isolating until their temperature returns to normal. Other members of their household should continue self-isolating for the full 14 days. <p>Parents and pupils have been informed of their allocated drop off and</p>

**LET
RISK ASSESSMENT FORM**

	<p>collection times and the process for doing so and we have made it clear to parents that they cannot gather at entrance gates or doors, or enter the site (unless they have a pre-arranged appointment, which should be conducted safely). One person at a time can enter the Reception area to speak to office staff.</p> <p>There is a process for removing face coverings when students and staff who use them arrive at school and this has been communicated clearly to them in a letter. Students have been instructed not to touch the front of their face covering during use or when removing them. They must wash their hands immediately on arrival (as is the case for all students), dispose of temporary face coverings in a covered bin or place reusable face coverings in a plastic bag they can take home with them, and then wash their hands again before heading to their classroom. Guidance on safe working in education, childcare and children's social care provides more advice if required.</p> <p>A member of staff will be at the gate each morning to remind people to maintain a distance, and a one way system will be in operation to ensure social distancing. Markers will be placed on the floor around entrances/exits and pinch points. Posters reminding staff and students of the need to social distance will be displayed. Staff will remind pupils and other staff of social distancing and the need for frequent handwashing. The pupils will wash their hands on arrival in the building.</p> <p>Cleaners are working to a specification to ensure all surfaces used by people are cleaned with warm soapy water and detergents daily.</p> <p>PPE is available in all classrooms and Reception. PPE resources are stored in our First Aid room.</p> <p>We have encouraged parents and students to walk or cycle to school where possible, and will follow the government guidance on how to travel safely, when planning their travel, particularly if public transport is required.</p> <p>Coronavirus (COVID-19): safer travel guidance for passengers</p>						
--	--	--	--	--	--	--	--

**LET
RISK ASSESSMENT FORM**

	<p>Wider public transport We expect that public transport capacity will continue to be constrained in the autumn term. Its use by pupils, particularly in peak times, should be kept to an absolute minimum. Families using public transport should refer to the safer travel guidance for passengers.</p>					
5.	<p>Staff, pupils and visitors moving around school Brief, transitory contact, such as passing in a corridor, is low risk. Markers will be placed on the floor around entrances/exits and pinch points to show 2m distance, although this distance is not compulsory. Posters reminding staff and pupils of the need to social distance will be displayed. Staff will remind pupils and other staff about social distancing and the need for frequent handwashing. Cleaners are working to a specification to ensure all surfaces used by people are cleaned with warm soapy water and detergents daily. PPE is available around school and stored in the First Aid Room and orders will be placed when needed. Doors may be propped open for classrooms and offices. The fire risk assessment has been updated.</p>		All staff	Ongoing	X	
6.	<p>Classroom Activities/Lessons The timetable will be followed as normal. Shared materials and surfaces will be cleaned and disinfected more frequently. Practical lessons can go ahead if equipment can be cleaned thoroughly. Pupils will be kept in class bubbles, PE equipment thoroughly cleaned between each use by different individual groups, and pupil contact avoided.</p> <p>PE: Outdoor PE will be prioritised where possible for KS1 children. Indoor PE lessons will take place in the hall with a maximum of 15 children in a group. Scrupulous attention will be paid to cleaning and hygiene. This is particularly important in a sports setting because of the way in which people breathe during exercise. Additional guidance on the phased return of sport and</p>		All staff	Ongoing	X	

**LET
RISK ASSESSMENT FORM**

<p>recreation and guidance from Sport England for grassroots sport and advice from organisations such as the Association for Physical Education and the Youth Sport Trust have been considered and specific risk assessments for PE activities have been reviewed. Schools are able to work with external coaches, clubs and organisations for curricular and extra-curricular activities where they are satisfied that this is safe to do so. Activities such as active miles, making break times and lessons active and encouraging active travel help enable pupils to be physically active while encouraging physical distancing.</p> <p>Music and Drama. There may be an additional risk of infection in environments where there is singing, chanting or shouting. This applies even if individuals are at a distance. We will reduce the risk, particularly when pupils are playing instruments or singing in small groups such as in music lessons by physical distancing and playing outside wherever possible, limiting group sizes to no more than 15, positioning pupils back-to-back or side-to-side, avoiding sharing of instruments, and ensuring good ventilation. Singing should not take place in larger groups such as school choirs or school assemblies. Staff to maintain 2 metre distance from students wherever possible. Drama lessons can take place in the hall to allow a larger space and access to outside space if the weather allows. Further more detailed DfE guidance will be published shortly.</p> <p>Physical intervention and intimate care plans should continue. PPE is available in the First Aid Room and grab bags for emergencies are in all classrooms and Reception. The Behaviour Policy and Safeguarding Policy has been updated to reflect any changes in practice as a result of Coronavirus, and parents have agreed to a new Home/School Agreement which outlines rules and expectations upon return. Off Site Visits for one day can go ahead. Cleaners are working to a specification to ensure all surfaces used by people are cleaned with warm soapy water and detergents daily. Staff have been issued with a copy of this risk assessment and have been</p>

	directed to https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools to ensure all staff have received up to date guidance and training.					
7.	<p>Outdoor Learning/Playtimes Our 2 KS1 classes will take breaks in rotation or in separate areas and will not mix. Breaks will be taken outdoors wherever possible. The hall may be used in case of wet weather but only by one lass bubble at any one time. Markers will be placed on the floor around entrances/exits and pinch points. Posters reminding staff and pupils of the need to social distance will be displayed. Staff will remind pupils and other staff of social distancing and the need for frequent handwashing. Pupils should bring water bottles from home. Brief, transitory contact, such as passing in a corridor, is low risk.</p>		All staff	Ongoing	X	
8.	<p>Using toilets/offices/staff rooms/break areas Cleaners are working to a specification to ensure all surfaces used by people are cleaned with warm soapy water and detergents daily. Staff will supervise toilet areas, ensuring low numbers at all times and that year group bubbles do not mix. Staff should ensure that they maintain social distancing in offices. Telephones and computer keyboards should be used by one individual or should be wiped with antibacterial wipes if used by another person. Social distancing should be in place when using the staff room. Staff are encouraged to bring their own cup and crockery etc and to wash, dry and put away anything they use. PPE is available around school and stored in the First Aid Room and orders will be placed when needed.</p>		All staff	Ongoing	X	
9.	<p>Food Preparation and Service (catering) It is very unlikely that COVID-19 is transmitted through food. However, as a matter of good hygiene practice, anyone handling food should wash their hands often with soap and water for at least 20 seconds before doing so. Crockery and eating utensils should not be shared. Clean frequently touched surfaces regularly.</p>	Existing school risk assessments for catering to be used in conjunction. Catering risk assessments to be	CATERING	Ongoing	X	

**LET
RISK ASSESSMENT FORM**

	<p>We continue to follow the guidance for food businesses on coronavirus (COVID-19). Staff supervision will ensure social distancing where possible and to promote personal hygiene. The hall will be used by our children for lunch and there will be two sittings. Hand washing will take place in classrooms prior to entering the hall. Hand sanitiser will be available in the hall. Children will sit side by side at tables and will not be seated opposite other children. There will be no queuing and staff will bring the meals to the children. Children will wear coloured wristbands at lunchtime and these will be washed daily. Lunchtime playtimes: F2 children will play in the EYFS play area and the KS1 children will play in zoned areas on the playground. The frequency of cleaning will be increased, especially hand touch surfaces, such as tables tops, drinks levers, keypads, grab-rails, elevator buttons, light switches, door handles, plates or cutlery, and any surface or item which is designed to be, or has a high likelihood of being touched. All doors and windows will remain open wherever possible to allow greater ventilation and prevent touching of window handles. Doncaster Council Food Safety Management System in place to reduce risk of contamination.</p>	used in conjunction.					
10.	<p>Illness. We will minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school We will ensure that pupils, staff and other adults do not come into the school if they have coronavirus (COVID-19) symptoms, or have tested positive in the last 10 days, and ensuring anyone developing those symptoms during the school day is sent home. We will ensure all staff are aware of it by sharing this risk assessment and communication at staff briefings and emails. If anyone in the school becomes unwell with a new, continuous cough or a high temperature, or has a loss of, or change in, their normal sense of taste or smell (anosmia), they must be sent home and advised to follow ‘stay at home:</p>		All staff	Ongoing	X

**LET
RISK ASSESSMENT FORM**

	<p>should not visit the GP, pharmacy, urgent care centre or a hospital.</p> <p>Any members of staff who have helped someone with symptoms and any students who have been in close contact with them do not need to go home to self-isolate unless they develop symptoms themselves (in which case, they should arrange a test) or if the symptomatic person subsequently tests positive (see below) or they have been requested to do so by NHS Test & Trace.</p> <p>Everyone must wash their hands thoroughly for 20 seconds with soap and running water or use hand sanitiser after any contact with someone who is unwell. The area around the person with symptoms must be cleaned with normal household disinfectant after they have left to reduce the risk of passing the infection on to other people. See the COVID-19: cleaning of non-healthcare settings guidance.</p> <p>We will not take temperatures of staff, visitors or pupils. Public Health England is clear that routinely taking the temperature of students is not recommended as this is an unreliable method for identifying coronavirus (COVID-19). Staff and pupils will be reminded to ensure good respiratory hygiene - promote the 'catch it, bin it, kill it' approach. All rooms have lidded bins and tissues are provided. Students with complex needs who struggle to maintain good respiratory hygiene, for example those who spit uncontrollably or use saliva as a sensory stimulant will have an individual risk assessment.</p> <p>Managing confirmed cases of coronavirus (COVID-19) amongst the school community. We will take swift action when we become aware that someone who has attended has tested positive for coronavirus (COVID-19). We will contact the local health protection team. Based on the advice from the health protection team, we must send home those people who have been in close contact with the person who has tested positive, advising them to self-isolate for 14 days since they were last in close contact with that person when they were infectious. Close contact means:</p> <ul style="list-style-type: none"> • direct close contacts - face to face contact with an infected individual for any length of time, within 1 metre, including being coughed on, a face to face conversation, or unprotected physical contact (skin-to-skin) • proximity contacts - extended close contact (within 1 to 2 metres for

	<p>more than 15 minutes) with an infected individual</p> <ul style="list-style-type: none"> travelling in a small vehicle, like a car, with an infected person <p>The health protection team will provide definitive advice on who must be sent home. We will keep a record of students and staff in each group, and any close contact that takes places between children and staff in different groups (see section 5 of system of control https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools for more on grouping students).</p> <p>Household members of those contacts who are sent home do not need to self-isolate themselves unless the child, young person or staff member who is self-isolating subsequently develops symptoms. If someone in a class or group that has been asked to self-isolate develops symptoms themselves within their 14-day isolation period they should follow ‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’. They should get a test, and:</p> <ul style="list-style-type: none"> if the test delivers a negative result, they must remain in isolation for the remainder of the 14-day isolation period. This is because they could still develop the coronavirus (COVID-19) within the remaining days. if the test result is positive, they should inform their setting immediately, and must isolate for at least 10 days from the onset of their symptoms (which could mean the self-isolation ends before or after the original 14-day isolation period). Their household should self-isolate for at least 14 days from when the symptomatic person first had symptoms, following ‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’ <p>We will not request evidence of negative test results or other medical evidence before admitting children or welcoming them back after a period of self-isolation. If the academy has two or more confirmed cases within 14 days, or an overall rise in sickness absence where coronavirus (COVID-19) is suspected, we will continue to work with the local health protection team who will advise if additional action is required. Further guidance is available on testing and</p>

	tracing for coronavirus (COVID-19).						
11.	<p>Clinically Vulnerable/Clinically Extremely Vulnerable Staff/Pupils We will review according to the current guidance for advice on who is in the clinically extremely vulnerable and clinically vulnerable groups https://www.gov.uk/government/publications/guidance-on-shielding-and-protecting-extremely-vulnerable-persons-from-covid-19 Shielding advice for all adults and children paused on 1 August, subject to a continued decline in the rates of community transmission of coronavirus (COVID-19). This means that even the small number of students who will remain on the shielded patient list can also return to school, as can those who have family members who are shielding. BAME staff and pupils are recognised to be at higher risk of severe illness from coronavirus. Individual risk assessments will be put in place for any vulnerable member of staff or student. We will be mindful of the particular needs of different groups of workers or individuals taking into account particular responsibilities towards disabled workers and those who are new or expectant mothers. We will involve and communicate appropriately with workers whose protected characteristics might either expose them to a different degree of risk and will consider whether any particular measures or adjustments; taking into account duties under the equalities legislation need to be put in place. We will also make reasonable adjustments to avoid disabled workers being put at a disadvantage, and assess the health and safety risks for new and expectant mothers. We have and will continue to provide support for workers around mental health and wellbeing.</p>		All staff	Ongoing	X		
12.	<p>Administration of Intimate Care and First Aid PPE to be used and child to receive care in same way. Cleaners are working to a specification to ensure all surfaces used by people are cleaned with warm soapy water and detergents daily.</p>		Trained staff	Ongoing	x

APPROVED BY

ADAM DALE

REVIEW DATE:

SEPTEMBER 2020

Important notice:

This risk assessment should be read and implemented in conjunction with the latest Government Guidance (see below).

Latest Government Guidance:

<https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools>

Additional guidance:

Personal protective equipment (PPE) including face coverings and face masks

Wearing a face covering or face mask in schools or other education settings is not recommended. Face coverings may be beneficial for short periods indoors where there is a risk of close social contact with people you do not usually meet and where social distancing and other measures cannot be maintained, for example on public transport or in some shops. This does not apply to schools or other education settings. Schools and other education or childcare settings should therefore not require staff, children and learners to wear face coverings. Changing habits, cleaning and hygiene are effective measures in controlling the spread of the virus. Face coverings (or any form of medical mask where instructed to be used for specific clinical reasons) should not be worn in any circumstance by those who may not be able to handle them as directed (for example, young children, or those with special educational needs or disabilities) as it may inadvertently increase the risk of transmission.

The majority of staff in education settings will not require PPE beyond what they would normally need for their work, even if they are not always able to maintain a distance of 2 metres from others. PPE is only needed in a very small number of cases including:

- children, young people and students whose care routinely already involves the use of PPE due to their intimate care needs should continue to receive their care in the same way

LET RISK ASSESSMENT FORM

- if a child, young person or other learner becomes unwell with symptoms of coronavirus while in their setting and needs direct personal care until they can return home. A fluid-resistant surgical face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then disposable gloves, a disposable apron and a fluid-resistant surgical face mask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then eye protection should also be worn

Shielded and clinically vulnerable children and young people

For the vast majority of children and young people, coronavirus is a mild illness. Children and young people (0 to 18 years of age) who have been [classified as clinically extremely vulnerable due to pre-existing medical conditions](#) have been advised to shield. We do not expect these children to be attending school or college, and they should continue to be supported at home as much as possible. Clinically vulnerable (but not clinically extremely vulnerable) people are those considered to be at a higher risk of severe illness from coronavirus. A small minority of children will fall into this category, and parents should follow medical advice if their child is in this category.

Shielded and clinically vulnerable adults

Clinically extremely vulnerable individuals are advised not to work outside the home. We are strongly advising people, including education staff, who are clinically extremely vulnerable (those with serious underlying health conditions which put them at very high risk of severe illness from coronavirus and have been advised by their clinician or through a letter) to rigorously follow shielding measures in order to keep themselves safe. Staff in this position are advised not to attend work. Read [COVID-19: guidance on shielding and protecting people defined on medical grounds as extremely vulnerable](#) for more advice.

Clinically vulnerable individuals who are at higher risk of severe illness (for example, people with some pre-existing conditions as set out in the [Staying at home and away from others \(social distancing\) guidance](#) have been advised to take extra care in observing social distancing and should work from home where possible.

Living with a shielded or clinically vulnerable person

If a child, young person or a member of staff lives with someone who is clinically vulnerable (but not clinically extremely vulnerable), including those who are pregnant, they can attend their education or childcare setting.

If a child, young person or staff member lives in a household with someone who is extremely clinically vulnerable, as set out in the [COVID-19: guidance on shielding and protecting people defined on medical grounds as extremely vulnerable guidance](#), it is advised they only attend an education or childcare setting if stringent social distancing can be adhered to and, in the case of children, they are able to understand and follow those instructions. This may not be possible

LET RISK ASSESSMENT FORM

for very young children and older children without the capacity to adhere to the instructions on social distancing. If stringent social distancing cannot be adhered to, we do not expect those individuals to attend. They should be supported to learn or work at home.

Staff who are pregnant

Pregnant women are in the 'clinically vulnerable' category, and are generally advised to follow the above advice, which applies to all staff in schools. Employers should conduct a risk assessment for pregnant women in line with the Management of Health and Safety at Work Regulations 1999 (MHSW). **The Royal College of Obstetrics and Gynaecology (RCOG)** has published [occupational health advice for employers and pregnant women](#). This document includes advice for women from 28 weeks gestation or with underlying health conditions who may be at greater risk. We advise employers and pregnant women to follow this advice and to continue to monitor for future updates to it.
